+ Personal Statement

I'm a protagonist with a passion for design. I can take anything that you throw at me may that be asset designing or web development. I am an uncomfortably fast learner with a passion for bettering myself with every project I complete.

+ EDUCATION

University of Kent **BSc Multimedia Technology and Design**

Third year
2013 - 2014
Organisational management theory, 3D modelling & compositing, web security theory, XML web application, e-commerce web design and development. Final year project encompassing website design and development, 3D modelling, compositing and digital marketing.

Second year
2011 - 2012
Basic ActionScript 3.0 & XML, audio & video technology theory, documentary film making theory and implementation, complete 3D modelling workflow.

First year
2010 - 2011
Basic web design usability and accessibility theory, basic flash animation, basic web JavaScript, digital photography implementation and theory and computer system theory.

Peter Symonds **IT, Business Studies, Classical Civilisation and General Studies**

Thornden School **13 GCSE's A - C**

+ EMPLOYMENT

Precise Pixels **Designer**
Aug 2013 - Now
A freelance web design company. We also provide graphic design, photography and 3D modeling / animation services. I do design work, aquire contracts and front end development.

Holiday Extras **Media Designer**
May 2012-Jul 2013
Working on a start up called miDrive I did branding, video content and anything and everything that I am required to do to help get the word out about this start up.

Holiday Extras **Web Internship**
Jul 2012-Jul 2013
Working through the web team and learning every aspect of the web development process from testing all the way to back end development.

Slug and Lettuce **Chef**
2010 - 2011
This was a full-time role when I am not at University. Responsibilities comprise prepping food and other kitchen duties, including instructing new employees on safety issues, procedures and technique in the kitchen.
